

StockVision AI - Portfolio Optimization Report

User: rgandhi0727@gmail.com
Generated On: 28-04-2026 12:20 PM
Total Investment: 10000.0
Selected Risk Level: low

Portfolio Score

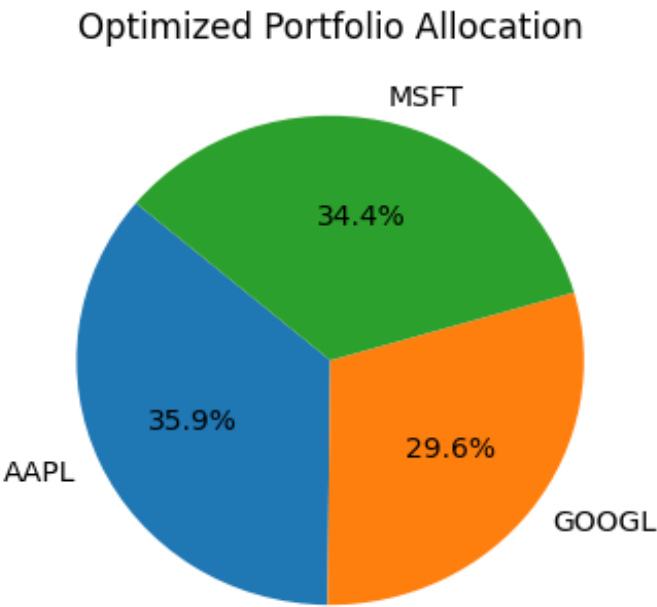

72.77 / 100

Your portfolio is balanced, but diversification and return can still improve.
Risk level is low and suitable for conservative investors.
Diversification is low. Adding more stocks can reduce risk.

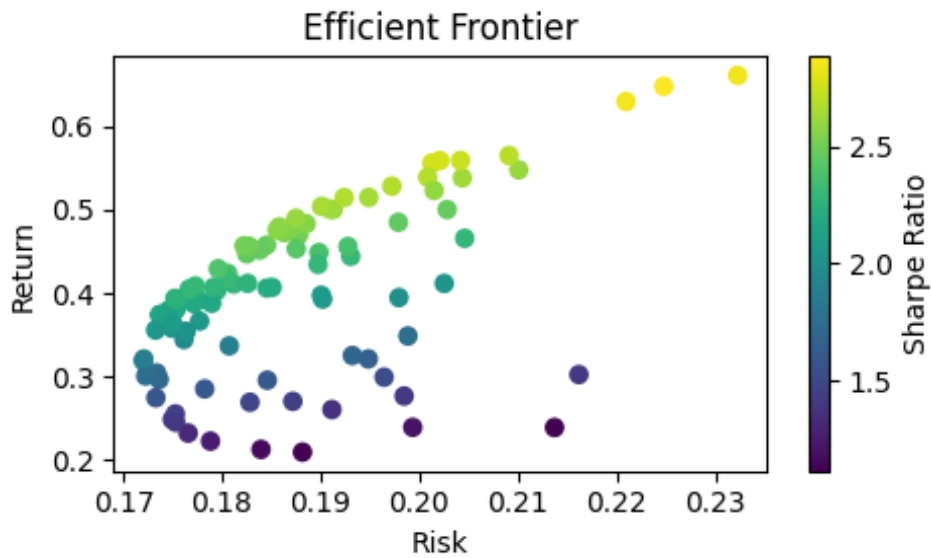

Portfolio Summary

Expected Return (%)	Portfolio Risk (%)	Sharpe Ratio
40.92	17.64	2.32
